An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Yerman on 5/06/05.

The application has been amended as follows: ----, wherein said energy absorber includes a housing having an inlet for an inflow of hydraulic fluid, an outlet for an outflow of hydraulic fluid and a plurality of circumferentially disposed passages for a flow of hydraulic fluid from said inlet to said outlet; a plurality of piston check valves, each said check valve being slidably mounted in a respective passage to move between a retracted position to allow hydraulic fluid to flow from said inlet into said respective passage and an extended position to block flow of hydraulic fluid from said inlet into said respective passage while discharging hydraulic fluid from said respective passage through said outlet; and a wobble plate connected to said reel to rotate therewith and connected to each said piston check valve to reciprocate each said piston check valve in a respect passage between said positions thereof, and a hydraulic line connected to and between said inlet and said outlet to define a closed loop, and comprising another valve in said

hydraulic line for selectively opening and closing said line to a flow of hydraulic fluid therethrough and a tail skid pivotally mounted on said frame in depending relation, said tail skid being connected to said another valve to actuate said another valve to close said hydraulic line in response to said skid contacting a ground surface and pivoting relative to said frame --- has been inserted in claim 1, last line, after "cable means". In claim 4, line 1, "3" has been changed to --- 1 ---.

Claims 2,3,5 and 11-21 have been canceled.
